MY JOURNEY -By Sellah Wafula now at Jomo Kenyatta University, Kenya

Greetings! I am grateful to reach you again. It's all by the grace of the Lord that I am doing well and continuing with my studies. I continue to thank God for leading me to Esther's Hope Ministries and for the scholarship support I got when I was at Kolanya Girls' High School from the year 2015 until I completed my high school in the year 2017. I passed my final high school examinations with excellent grades which was evidence of God's favor on my life. May God bless you and Esther's Hope Ministries for helping me.

After high school I received admission to Jomo Kenyatta University of Agriculture and Technology at Juja Main campus. I am pursuing a Bachelor of Science: Health Records and Information Management degree. I am so happy because I am managing the academic challenges well. I usually apply for a Higher Education Loans Board (HELB) loan which helps in paying my school fees. I continue to struggle with additional challenges, including clothing, accommodation, food and other basic needs.

Currently my brother is supposed to join campus at Kirinyaga University to pursue a Bachelor of Technology in Electronics and Computer Engineering Degree. One of my sisters is at Luuya Girls High School in Form One. All this was achieved because of the great support you gave me. Your generosity made it possible for them to continue with their studies too. I am very grateful for what you did for me and hope you will continue supporting me through my university studies. May God bless you and Esther's Hope Ministries abundantly!
